

User Personas – Loneliness Among Teenagers (Based on 3 Interviews)

Persona 1 – The Socially Connected but Occasionally Lonely Teen (Vydik)

About:

A teenager who values friendships and family relationships but sometimes feels lonely when left alone for long periods or when loved ones are busy.

Goals:

Maintain strong relationships, stay emotionally balanced, and feel connected to others.

Pain Points:

Feels lonely when away from friends and family; experiences loneliness when there is no one to talk to or during long periods of boredom.

Support System:

Relies on close friends and family members for emotional support and guidance.

Coping Mechanisms:

Listening to music, watching relaxing content, talking to friends, and going for walks.

Key Quote:

"Talking to a friend helps me feel lighter."

Persona 2 – The Hardworking and Self-Aware Student (Hasini)

About:

A student who manages academic responsibilities while being mindful of emotional well-being. Sometimes feels lonely when spending too much time alone.

Goals:

Perform well academically, manage stress effectively, and maintain healthy relationships.

Pain Points:

Stress from exams, deadlines, and excessive workload; occasional loneliness when isolated; sometimes affected by social media comparisons.

Support System:

Receives encouragement and support from friends and family.

Coping Mechanisms:

Listening to music, talking to trusted people, and seeking emotional support when needed.

Key Quote:

"Talk to someone you trust and don't keep your feelings to yourself."

Persona 3 – The Independent and Resilient Individual (Sumana)

About:

A teenager who enjoys spending time alone and rarely experiences loneliness. Values personal space and self-reflection.

Goals:

Maintain emotional stability, succeed academically, and handle challenges confidently.

Pain Points:

Academic pressure and negative interactions with others can sometimes affect emotional well-being.

Support System:

Depends mainly on family support, especially from her father, for emotional comfort and advice.

Coping Mechanisms:

Expressing feelings to trusted family members and taking time for self-reflection.

Key Quote:

"I genuinely like my own time, so I don't usually feel lonely."
