

INTERVIEW PARTICIPANT · PERSONA 1 OF 3

Akshara

THE THOUGHTFUL ACHIEVER

- Age 18
- Student
- Situational Loneliness
- Help-Seeking: Moderate

"Talking to someone I trust and staying busy helps me."

— DEMOGRAPHICS

- AGE

18

LONELINESS TYPE

Situational
- OCCUPATION

Student

HELP-SEEKING

Moderate

— GOALS & ASPIRATIONS

- Manage academic stress effectively
- Maintain close, meaningful friendships
- Avoid feeling isolated or left behind
- Improve overall emotional well-being

— MOTIVATIONS

- Deeply values trusted friendships
- Wants emotional balance in daily life
- Focuses on personal future growth
- Enjoys meaningful, one-on-one conversations

— FRUSTRATIONS & PAIN POINTS

- Heavy academic pressure and deadlines
- Social media comparison triggers self-doubt
- Occasionally feels left out of social events
- Persistent worry and anxiety about the future

— COPING STRATEGIES

- Listens to music to decompress
- Watches videos and light entertainment
- Opens up to a small circle of close friends
- Keeps busy with hobbies to distract herself

— BEHAVIORS & HABITS

- Academic Stress
- Music Lover
- Future-Focused
- Trusted Friend Circle
- Social Comparison Awareness

KEY INSIGHT

Akshara seeks emotional stability through trusted relationships and productive activities — she thrives when she feels connected and purposeful.

INTERVIEW PARTICIPANT · PERSONA 2 OF 3

Aashritha

THE REFLECTIVE OVERTHINKER

- Age 18
- Student
- Emotional Loneliness
- Help-Seeking: Moderate

"Having meaningful conversations with friends helps a lot."

— DEMOGRAPHICS

- AGE

18

LONELINESS TYPE

Emotional
- OCCUPATION

Student

HELP-SEEKING

Moderate

— GOALS & ASPIRATIONS

- Feel genuinely understood by others
- Reduce overthinking patterns
- Improve emotional well-being
- Build deeper, stronger connections

— MOTIVATIONS

- Values deep, meaningful friendships
- Driven by personal growth
- Craves genuine emotional understanding
- Seeks supportive, caring relationships

— FRUSTRATIONS & PAIN POINTS

- Exam pressure and high expectations
- Compares herself to peers frequently
- Distance from close friends and family
- Excessive overthinking spirals

— COPING STRATEGIES

- Goes for solitary walks to clear her head
- Listens to music for self-soothing
- Talks to trusted close friends
- Practices reflection and journaling

— BEHAVIORS & HABITS

- Overthinker
- Music Listener
- Self-Reflective
- Close Friend Support
- Emotionally Aware

KEY INSIGHT

Aashritha values deep emotional connections and often processes feelings internally before seeking support — she needs a safe space, not just a listening ear.

INTERVIEW PARTICIPANT · PERSONA 3 OF 3

Havish

THE SOCIALLY ACTIVE OPTIMIST

- Age 18
- Student
- Situational Loneliness
- Help-Seeking: High

"Keeping myself occupied and talking with friends helps me the most."

— DEMOGRAPHICS

- AGE

18
- OCCUPATION

Student
- LONELINESS TYPE

Situational
- HELP-SEEKING

High

— GOALS & ASPIRATIONS

- Maintain strong, active friendships
- Balance responsibilities without burning out
- Stay emotionally healthy and grounded
- Build a consistently positive lifestyle

— MOTIVATIONS

- Energised by social interaction and group activities
- Driven by a positive, optimistic mindset
- Values personal stability and consistency
- Feels best when part of a close-knit group

— FRUSTRATIONS & PAIN POINTS

- Heavy academic and personal workload
- Lack of sleep affects mood and performance
- Missing loved ones when separated
- Feels ignored or excluded at times

— COPING STRATEGIES

- Exercise and physical activity to reset
- Gaming as a form of escape and fun
- Talks openly with friends about problems
- Keeps himself busy with various activities

— BEHAVIORS & HABITS

- Social
- Optimistic
- Open Communication
- Active Lifestyle
- Friend-Oriented

KEY INSIGHT

Havish relies on social interaction and active engagement to maintain emotional well-being — isolation is his biggest threat and connection is his greatest resource.
